DEVELOPMENT PROJECT

HoneyDo Helper(Capstone): [Live Site](#) | [Repository](#)

A dynamic and user-friendly website to connect individuals with local experts, ready to assist with household tasks. Not only can you look for help with your nitpicky tasks, but the user can also become a registered "HoneyDoer" to perform these tasks and get paid while doing so. I contributed to the design aspect of the website, user functionality, database, and logo creation.

Skills: Paired Programming, HTML, CSS, Bootstrap, Java, JavaScript, Spring Boot, Spring Boot Security, API.

EXPERIENCE

Aegis Firecontrolman US Navy - Seattle, WA

SPY-1D(V) Radar Tech / Jan 2017 - Sep 2022

- Worked onboard an Arleigh Burke class destroyer, DDG 101, and worked specifically on the SPY-1D(V) radar.
- Performed planned maintenance as well as troubleshooting the electrical equipment with 1,600+ hours of work geared specifically towards the radar.
- Played a very important role of maintaining the radar and keeping it up to standards while being a part of a NATO deployment in 2019 where DDG 101, the ship that I was on, was the flagship.
- Professional communication to superiors and higher ranked military officials and talking to foreign countries during Ops Intel briefs
- Trained a division of 20 sailors.
